### Environment

The Municipal Assembly has many natural resources such as land, water, air etc. The Municipal Assembly with the help of other stakeholders have undertaken community educational programs on flood, domestic, bush fires and pest control to protect the environment from depleting. The Municipality has an efficient and hygienic method of human waste disposal available is a critical indicator of the sanitary condition and an indirect measure of the socio-economic status of a household. Sanitation coverage in general is not encouraging considering the urban nature of the municipality. Majority of households use public toilets (39%), followed closely by water closest (22.6%) with just a few using KVIP and Pit latrine.

### Tourism

The New Juaben North Municipality is endowed with potentials that predisposes the area to tourism development. The scenic landscape of the Worapong Mountain offer possibilities to all kind of tourist. The mountain could be used by sports fans for hiking and climbing. Others could simply visit to appreciate the beautiful landscape and the Waterfall in the area. In the remote valleys and on the mountain peaks visitors could discover unique biodiversity.

### Education

The New Juaben North Municipal area has five (5) circuits, namely; Effiduase, Asokore, Oyoko, Jumapo and Akwadum. There are 33 and 30 public and private basic schools within

the five (5) circuits in the Municipality respectively. There are five Senior High schools in the Municipality namely: Pope John Senior High school, Ghana Senior High school, Koforidua Technical Institute, SDA Senior High school and Oyoko Methodist Senior High school. The teacher pupil ratio is 24:1; representing that averagely One (1) teacher is to 24 school pupil in the Municipality

### **Roads**

Road transport is the dominant carrier of freight and passengers in the Municipality. It carries over 95% of all passengers and freight traffic and connects all the communities which constitute the New Juaben North Municipal Assembly. The road is classified into two groups; the urban roads 250 km and feeder roads 300km. With respect to the mode of transport, most people prefer the use of public means. The communities in the Municipal Assembly can be reached by the use of urban buses known as trotro, taxis and tricycle properly known as (pragya). Road transport infrastructure in the municipality is used to facilitate the exchange of commodities, enable regular school attendance and fast access to health facilities in Ghana.

### **KEY DEVELOPMENT ISSUES/CHALLENGES**

- ❖ Boundary Dispute
- ❖ Low mobilization of internally generated funds
- ❖ Poor road networks
- ❖ Perennial flooding
- ❖ Inadequate Water Supply
- ❖ Inadequate household toilet facilities

### **Vision**

The Vision of New Juaben North Municipal Assembly is to be 'A leading Local Government institution facilitating excellent local economic development.

### **Mission**

The NJNMA exists to improve the standard of living of the people through sustainable mobilization and effective utilization of resources within the framework of good and accountable governance.

**Conclusion**

The New Juaben North Municipal Assembly encountered numerous challenges in implementing the 2024 Revenue Improvement Action Plan (RIAP). This negatively impacted on the implementation of the 20224 Composite Budget. In order to overcome these challenges and also ensure the smooth implementation of the 2025 Composite Budget, a comprehensive review of the 2024 RIAP and Composite Budget was done. This informed the drafting of the 2025 RIAP. It is hopeful that the 2025 RIAP will be implemented fully so as to achieve the revenue targets.
